### Preparation

- Develops clear objectives and expectations (lesson plan)
- Subject and learning experiences are organized and structured
- Reviews and handles announcements effectively
- Creates a positive learning environment
- Motivation – creates interest for learning the subject
- Communicates objectives verbally and/or in writing; develops problem(s) to solve, decisions to make, and/or study questions

### Presentation – Instruction

- Provides opportunity to learn stated objectives
- Demonstrates technical knowledge of the subject
- Uses discussion and distributes questions effectively
- Challenges students’ thinking – asks higher order questions
- Provides opportunities for individual differences
- Clarity – explains concepts in concise, clear manner; provides clear directions; illustrates concepts clearly
- Variety – implements a variety of instructional approaches, teaching methods, and/or instructional materials and resources
- Enthusiasm – displays enthusiasm for the subject and teaching and demonstrates the ability to motivate students
- Task-oriented – keeps students on task, uses instructional time effectively, and manages behavior in a constructive manner
- Closure – summarizes key points and concepts; concludes with definite decision(s) and/or recommendation(s)

### Application

- Provides opportunity to apply and practice concepts/skills
- Discusses and evaluates solutions to problems, decisions that were made, and/or study questions

### Evaluation

- Uses appropriate evaluation tools and/or techniques
- Provides students with knowledge of their progress and evaluative feedback

**White: University Supervisor**  **Yellow: Intern**  **Pink: Cooperating Teacher**
